NEXT LEVEL HYDRATION  
ENERGIZE-HYDRATE-REPLENISH-GLOWING SKIN

NON-GMO • DAIRY FREE • SOY FREE • GLUTEN FREE • ALL-NATURAL FLAVORS

## OFFERED IN FOUR IRRESISTIBLE FLAVORS

-  COCONUT COLADA
-  RASPBERRY LEMONCELLO
-  APPLETINI
-  PEACH BELLINI

There are an estimated **75% of Americans** who suffer from chronic dehydration, and studies show that only **22% are drinking** the USDA recommended amount of water that our bodies need. The fact is that we simply **do not drink enough water**. Staying hydrated is an essential part of maintaining good health. Hydration aids in improving energy levels, mood, memory, weight loss, headaches, and physical performance.

**Even if you are in the 22% that does drink your recommended H2O, water alone is not enough.** We also need electrolytes, which support regulating fluid levels in the body (including blood plasma) allowing muscle contractions (including the heartbeat), and transmitting messages from the muscles, nerves, heart, and other cells. The combination of dehydration and electrolyte imbalance can cause fatigue, headaches, dizziness, confusion, and several other commonly known symptoms. Hydrating your body along with balancing your electrolytes are a proven staple in maintaining health and fitness, and the reason why hydration/electrolyte drinks have been a great choice for so many.

## BELLAME HYDRATE BOOST IS A NEXT-LEVEL FORMULATION WITH GLOWING SKIN BENEFITS

We started with a formula that **delivers 300% hydrating effects** per glass of water in addition to electrolytes for balance. We include natural Dextrose in the necessary sugars required in a hydration supplement because it is known to convert glucose faster in your body, compared to other sugars. This is also why Dextrose is a natural choice for hospitals and doctors when it comes to treating dehydration and low blood sugar (this is the main fluid used in IV bags when treating dehydration).

Then we added hero skin ingredients such as Hyaluronic Acid and Baobab Fruit powder plus four different kinds of Vitamin B that support energy and glowing skin! **B1 & B2 are known to improve** the appearance of fine lines and wrinkles plus helps to improve skin tone and are great for dry skin or acne. B3 helps hyperpigmentation, decreases redness, and promotes skin elasticity. B6 helps combat hormonal imbalance which leads to acne breakouts.

*Our Hydrate Boost delivers what your body needs from the inside out!*
